

bluvfi

Design System

The visual foundation for Bluvfi — the AI-powered financial companion for crypto users. Dark-native, mono-accented, precision-built.

1.0.0

PLATFORM

Android · Web

STACK

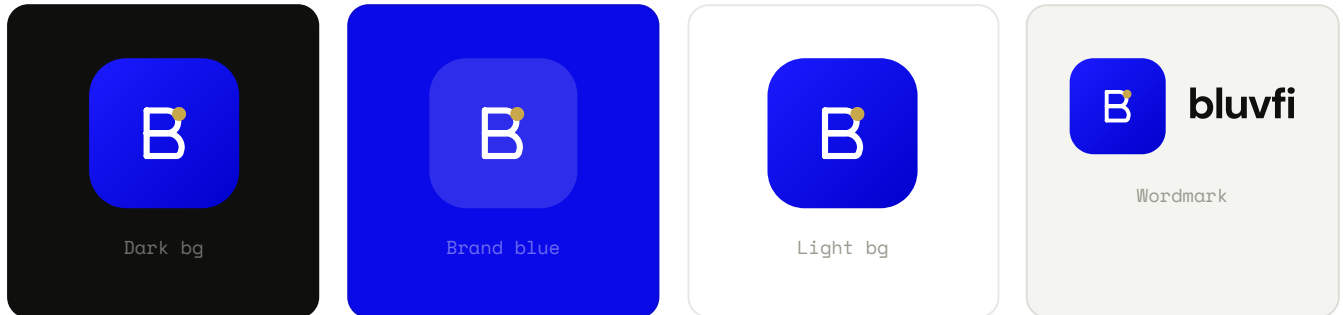

Next.js · Tailwind · Capacitor

DATE

October 2026

Logo & Identity

The Bluvfi mark combines a stylised "b" with a gold diamond accent — representing the intersection of traditional finance and crypto-native value. The diamond is always gold (#C9A84C) and the letterform is always white on blue.

RULE	DO	DON'T
Mark	Use the provided SVG at correct proportions	Stretch, skew, or redraw the letterform
Clearspace	Minimum 1× mark height on all sides	Crop or butt content against the mark
Diamond	Always gold (#C9A84C)	Change the diamond colour
Wordmark	Lowercase "bluvfi" in DM Sans 700	Capitalise or change the typeface

Palette

Bluvfi is dark-native. The palette centres on deep charcoal surfaces, cobalt blue for brand, sage green for positive financial states, and gold reserved exclusively for premium.

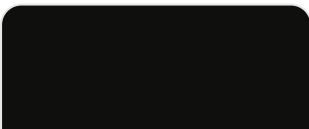

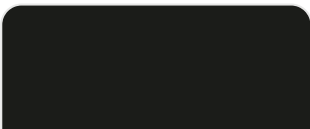

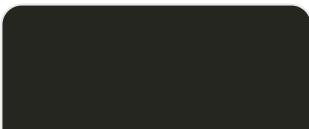

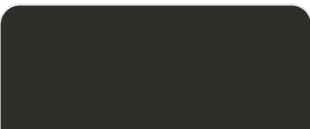

BRAND

 Blue Vivid #0A0AE8 CTAs, links, active states	 Blue Deep #0000CC App icon background	 Sage #8FAE82 Prices, positive delta, success	 Gold #C9A84C Premium only — never reuse
---	---	---	---

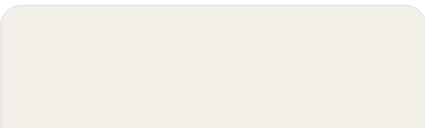

SEMANTIC

 Alert Red #E05252 Errors, failed, negative delta	 Amber #E8A838 Warnings, pending transactions
---	---

SURFACES — DARK

 BG-0 #0F100D Page ground, deepest bg	 BG-1 #1B1C19 Cards, sheets, sidebars	 BG-2 #252620 Inputs, tab bars, chips	 BG-3 #2E2F2A Hover states, dividers
--	--	---	---

TEXT

 TX-0 #F2F0E8 Headings, primary content	 TX-1 #A7A79A Body, descriptions, secondary	 TX-2 #6B6B62 Labels, timestamps, disabled
--	---	---

Type System

DM Sans for all UI copy; Space Mono for numbers, amounts, labels and codes — anchoring financial data in a technical register.

Scale

4px base grid — all spacing is a multiple of 4.

	4px · 0.25rem	Icon gaps, tight stacks
	8px · 0.5rem	Badge padding, small gaps
	12px · 0.75rem	Row gaps, chip padding
	16px · 1rem	Side gutter (min), card padding
	20px · 1.25rem	Card padding, button padding
	24px · 1.5rem	Sheet padding, section gaps
	32px · 2rem	Between component groups

Buttons

Five variants. Use Primary for the single most important action per screen. Premium is reserved for upgrade prompts only.

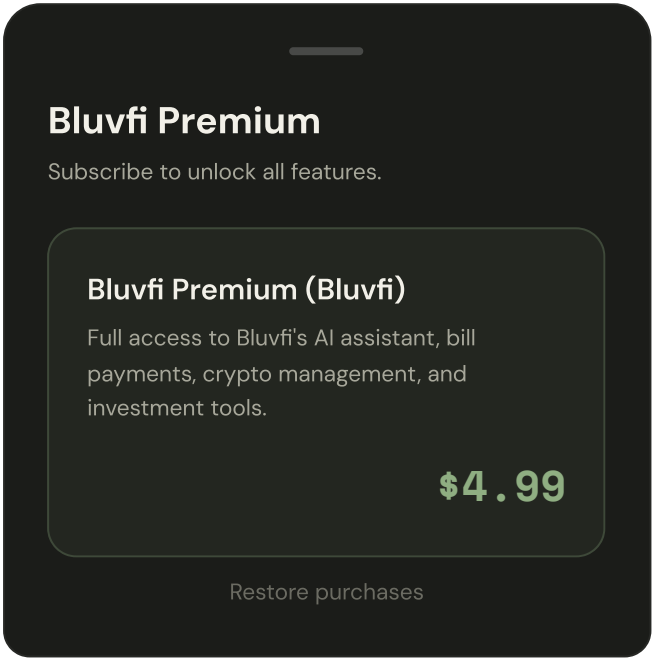

Cards

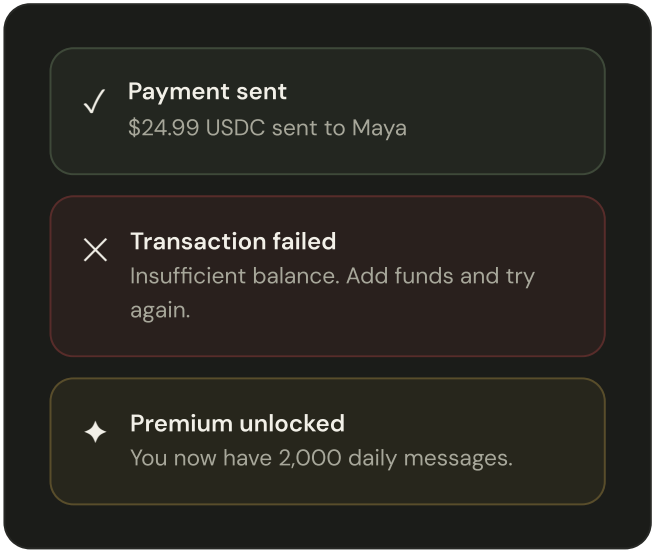

Sheets, Toasts & Navigation

The bottom sheet is the primary action surface on mobile. Toasts are non-blocking feedback. Navigation uses a persistent bottom bar with four destinations.

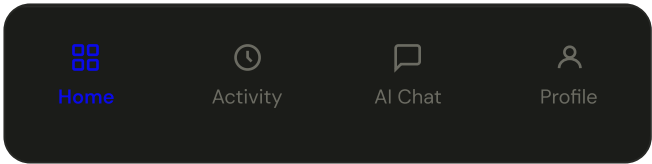

PAYWALL SHEET
